Saltbox

The saltbox originated in New England and is an example of American colonial architecture. Folklore holds that the saltbox form was popularized by Queen Anne's taxation of houses greater than one story. Since the rear of the roof descended to the height of a single-story building, the structure was exempt from the tax.

The She Shed

If men have “Man Caves” Where they can escape , Why shouldn’t women have their own escapes? Well, there’s a new trend to help ladies everywhere Shed the stresses of the everyday: meet the “She Shed.” Typically constructed in a backyard nook, these tiny cottages are perfect for women who want alone time for reading, creating, gardening, or even napping. There are no rules to building a She Shed; they’re anything you want them to be (and then some).

LP SMART FACT:
Zinc borate is safely used
in household items including
paper, carpet and paint.

EXTREME PROTECTION
IN TOUGH CLIMATES

Exterior trim and siding are often subjected to extreme temperatures, moisture and insects. That's why all LP® SmartSide® products feature our exclusive SmartGuard process. Only SmartGuard offers four components of protection against termites and fungal decay.

TREATED TO THE CORE

Every LP SmartSide product is treated to the core with an advanced formula of binders, waxes and zinc borate before being bonded with a water-resistant, resin-saturated overlay. This process helps keep out moisture for long-term durability and strength against harsh weather.

LP® SmartGuard®

ENGINEERED TOUGHNESS TO RESIST HARSH CLIMATES

THE POWER OF SOUND ENGINEERING AND SMART PRODUCT DESIGN

WAXES

Special water-resistant waxes coat each strand or fiber of wood for enhanced durability in rainy, humid environments.

RESIN-SATURATED OVERLAY

Offering the final layer of protection against the elements, a resin-saturated overlay resists moisture intrusion while providing a durable base for quality paint adhesion and beauty.

ZINC BORATE

Engineered wood products treated with zinc borate have been proven to effectively resist damage from termites and fungal decay for decades. Safe for children and pets, this naturally occurring additive provides long-lasting performance that preserves the beauty of LP SmartSide Trim and Siding.

ADVANCED BINDERS

LP SmartSide Trim and Siding provide incredible strength to resist impact damage thanks to their industrial-grade binders and resins. You'll have the confidence of knowing that your siding can stand up to everyday airborne debris such as hail, sticks and golf balls.

Stronger Better Floors

Make sure your new shed comes with a heavy duty floor. Your shed from Lakeside Cabins comes standard with 3/4" Smartfloor and 16" on center joists, or, if you get a garage, it comes standard with 12" on center joists. We tested this standard garage floor with a 30,000 lb tractor, or 15 tons. That is equal to 1,300 lbs per square foot!

Just a couple of the features and benefits:

- Comes with 10 year limited warranty
- Easier to sweep than traditional plywood or plank flooring
- World-class resistance to termites
- Simple to paint and stain

Skid Frame Spacing
